

SLIMLINE/FRONTLINE ROUND

SHELVING SYSTEM

SLIMLINE/FRONTLINE ROUND

SHELVING SYSTEM

Create beautiful curved shelving for your library

The Slimline/Frontline round shelving opens up for a whole new world of displaying and storing books. Create small reading or specialized zones by making almost complete circles, where library readers can hide away or create open waves running through the library.

The round shelving is a further development of the popular Slimline/Frontline shelving system, a product concept that has evolved over the years. The shelving systems allows for a variety of standard as well as individual, customized solutions.

The pictures show the Slimline/Frontline round shelving systems in many creative and sometimes customized configurations. For additional inspiration we invite you to visit our website where you can find project inspiration from our latest projects around the world. Our professional sales team is ready to help you with any questions you may have.

Create hide-away spaces where readers can immerse themselves in the world of books

SLIMLINE/FRONTLINE ROUND

SHELVING SYSTEM

Product details

Slimline/Frontline wooden round shelving is a double-sided shelving with overlaying top shelf, that can either be constructed as a round shelving with only curved bays or in combination with straight bays. The round shelving is available in two variations - 18° or 26° degrees and with either adjustable feet or castor plates. Note that the height of the shelving is the same when equipped with either castors or feet.
