ORDRUP & SINGLES

The magazine display and storage shelving systems become more and more popular, not only in the library but also in various public areas where magazines need to be exposed and stored in a user friendly way. With our two different systems you can organize your magazines in an easy-to-find way and at the same time logically store older versions of the magazines.

These elegant and streamlined displays fit in nicely with several of our main products; Lingo, Box and 60/30 Steel Shelving with London panel and top shelves. Use the magazine display and storage shelving as a piece of furniture on its own or as a room divider to help create just the right atmosphere.
